

Our Lady of the Prairie Catholic School

Something GREAT is happening.....

“Your light must shine before men so that they may see goodness in your acts and give praise to your heavenly Father.”

Matthew 5:16

The **primary duty of parents** is to educate your children in the Catholic faith so they can fulfill their vocation to **become saints**. At Our Lady of the Prairie Catholic School, your children will grow in holiness and service to others every day, becoming a “**light**” to others and bringing them closer to Heaven.

From a real Our Lady of the Prairie Catholic School Family – The Schatz’s:

“What does OLP School mean to our family? Having your children attend a Catholic School is a commitment just like a car payment but it is well worth it as OLP provides an Education that is amazing! As having past graduates along with a current student and a future student, OLP has provided an education and an experience that our children will carry with them for a lifetime. The smaller class size has given our children the opportunity to create a strong bond with their classmates and peers. OLP provides an opportunity for our children to strengthen their Catholic faith. They are able to talk about God freely and pray together as a class. They don’t have to worry about what they are feeling and aren’t afraid to ask other classmates or even teachers to pray for them or for someone that is in need of prayers. What a great feeling that is for our children! Also you may think that attending Mass weekly would be something that a child may not look forward to but our children **do** as they are able to take active roles in the Mass and also are provided the opportunity to serve the parish when other families are in need.

This school not only has provided many things to our children but has greatly given amazing things to our family. OLP School is like a family so we have to be united! We come together as we fundraise for our children’s education. This fundraising gives us parents an opportunity to volunteer and to be with other families with the same mission - an excellent Catholic Education. A public school teacher stated in a past Board of Education meeting, “that a good teacher can teach out of a paper bag.” This is true as our school doesn’t have all the fancy bells and whistles but it doesn’t need it!

We feel that OLP has provided a strong core of morals and great education for our children. I would like to offer you and your family an opportunity to experience this amazing education!”
